

Cement Industries Solutions

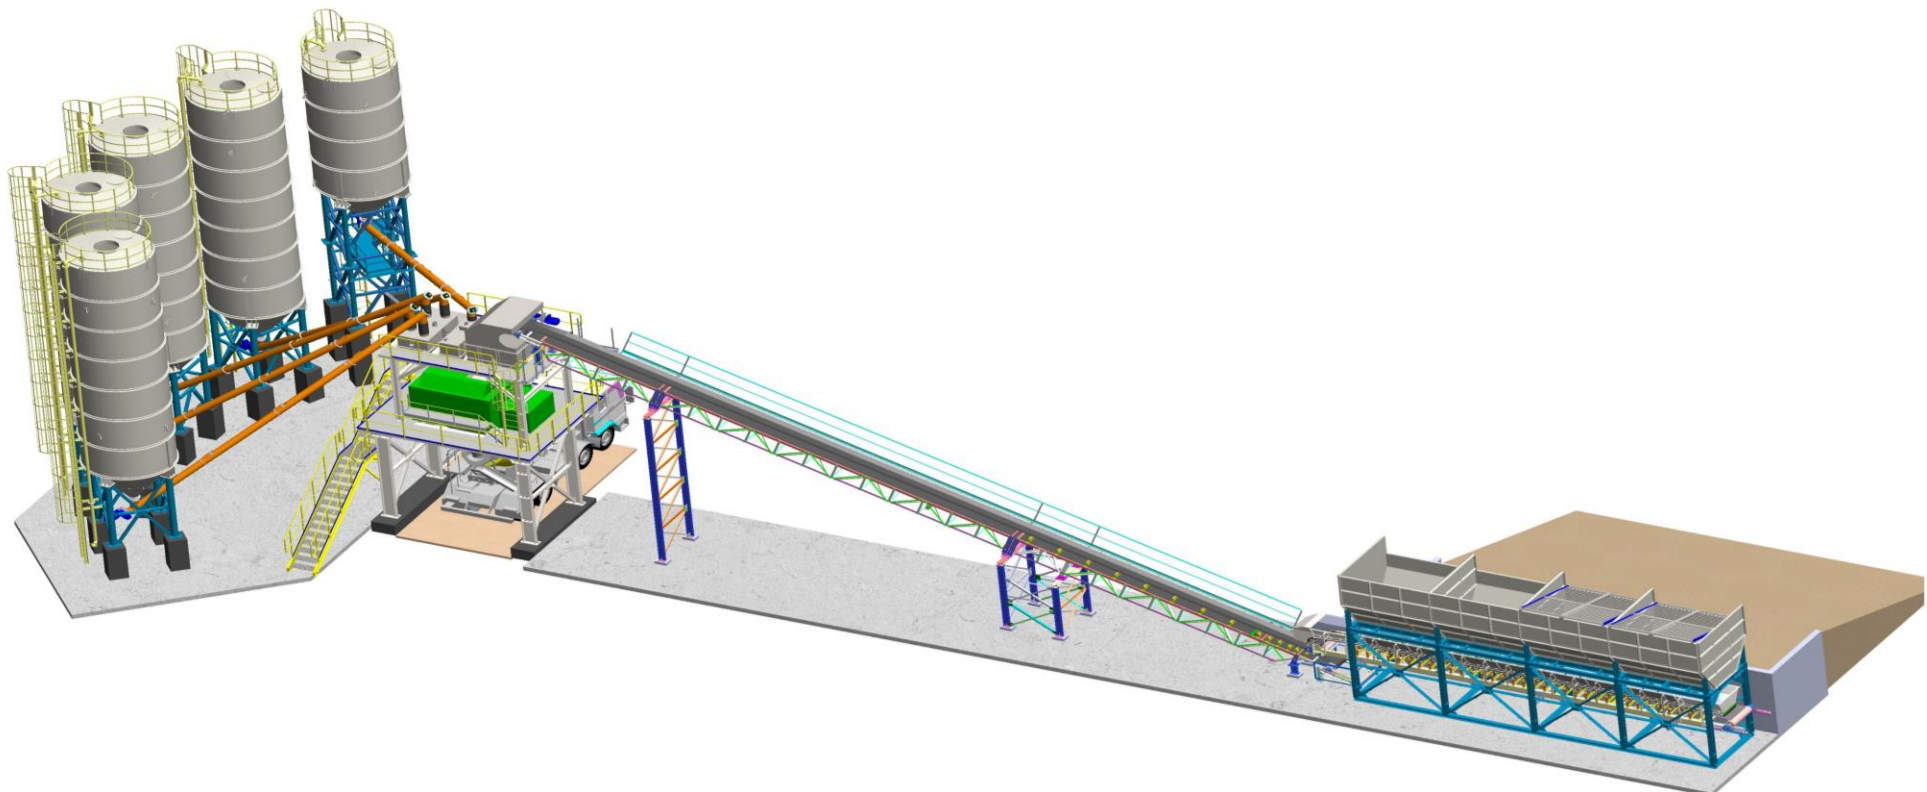

- In designing machinery and systems that operate in one of the toughest industrial environments, NDSECO engineering team have the knowledge and experience to produce the cost – effective and productive solutions.
- Our engineers utilize the last computer simulation techniques when designing systems that cover the client needs.

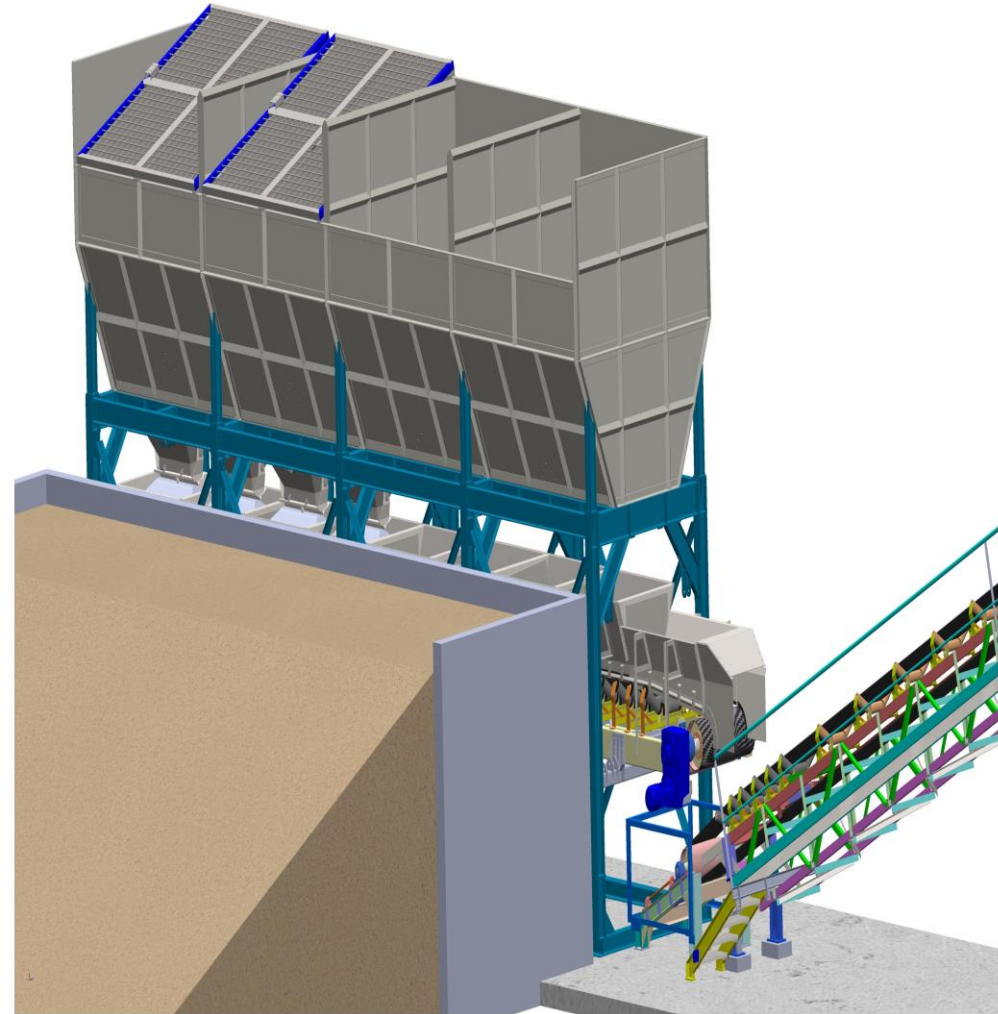

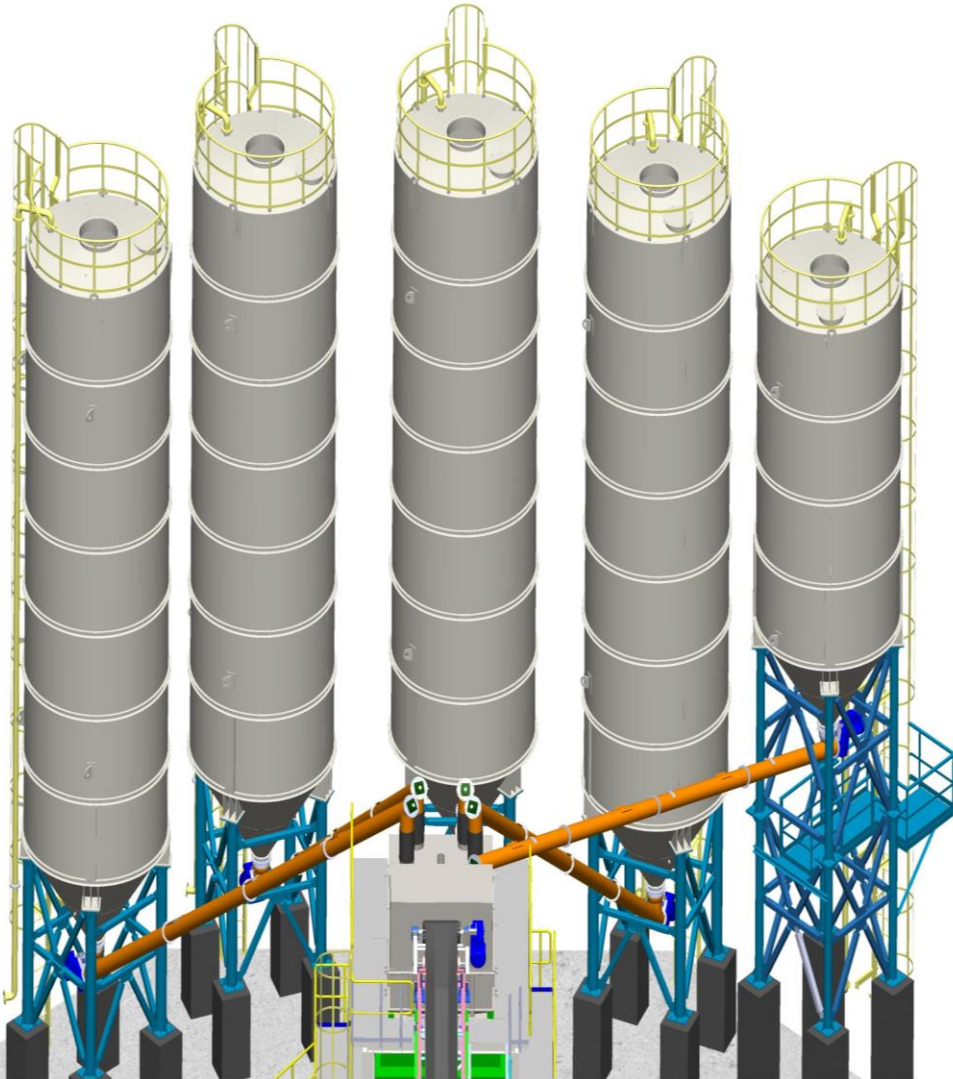

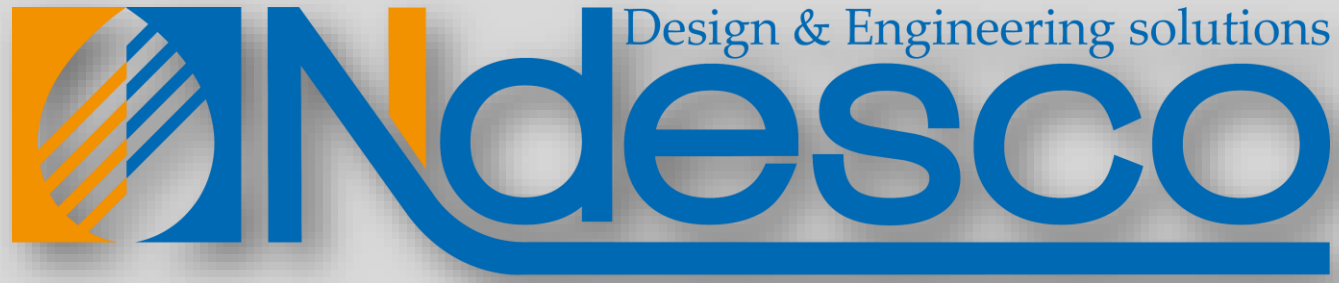

- NDESCO is one of the concrete batching plant manufacturers that has its resources for the production and shows its difference compared to many manufacturers with its self-sufficiency in all production processes. The concrete plants and equipment that it produces are made of the highest quality material, thus working for many years while maintaining their efficiency.
