

{ Vertical Silos }

- Today the company build up an integrated factory for the vertical storage silos production with capacity from 60 : 6,000 Ton / silos and already contracted to buy the complete corrugated sheet line, in time the company has all the equipment required to fabricate all the other components like vertical stiffeners, bucket elevators, conveyors, gates, steel structure and all accessories.
- Scope of work including the followings :
 - i. Design / Engineering works:
 1. NDESCO create 3D models for the whole grain storing system including sections and thickness, also the relations between the system components
 2. Dynamic loads from mechanical equipment are applied to the system and then we can get the loads on both structure and civil parts to get the optimum design.

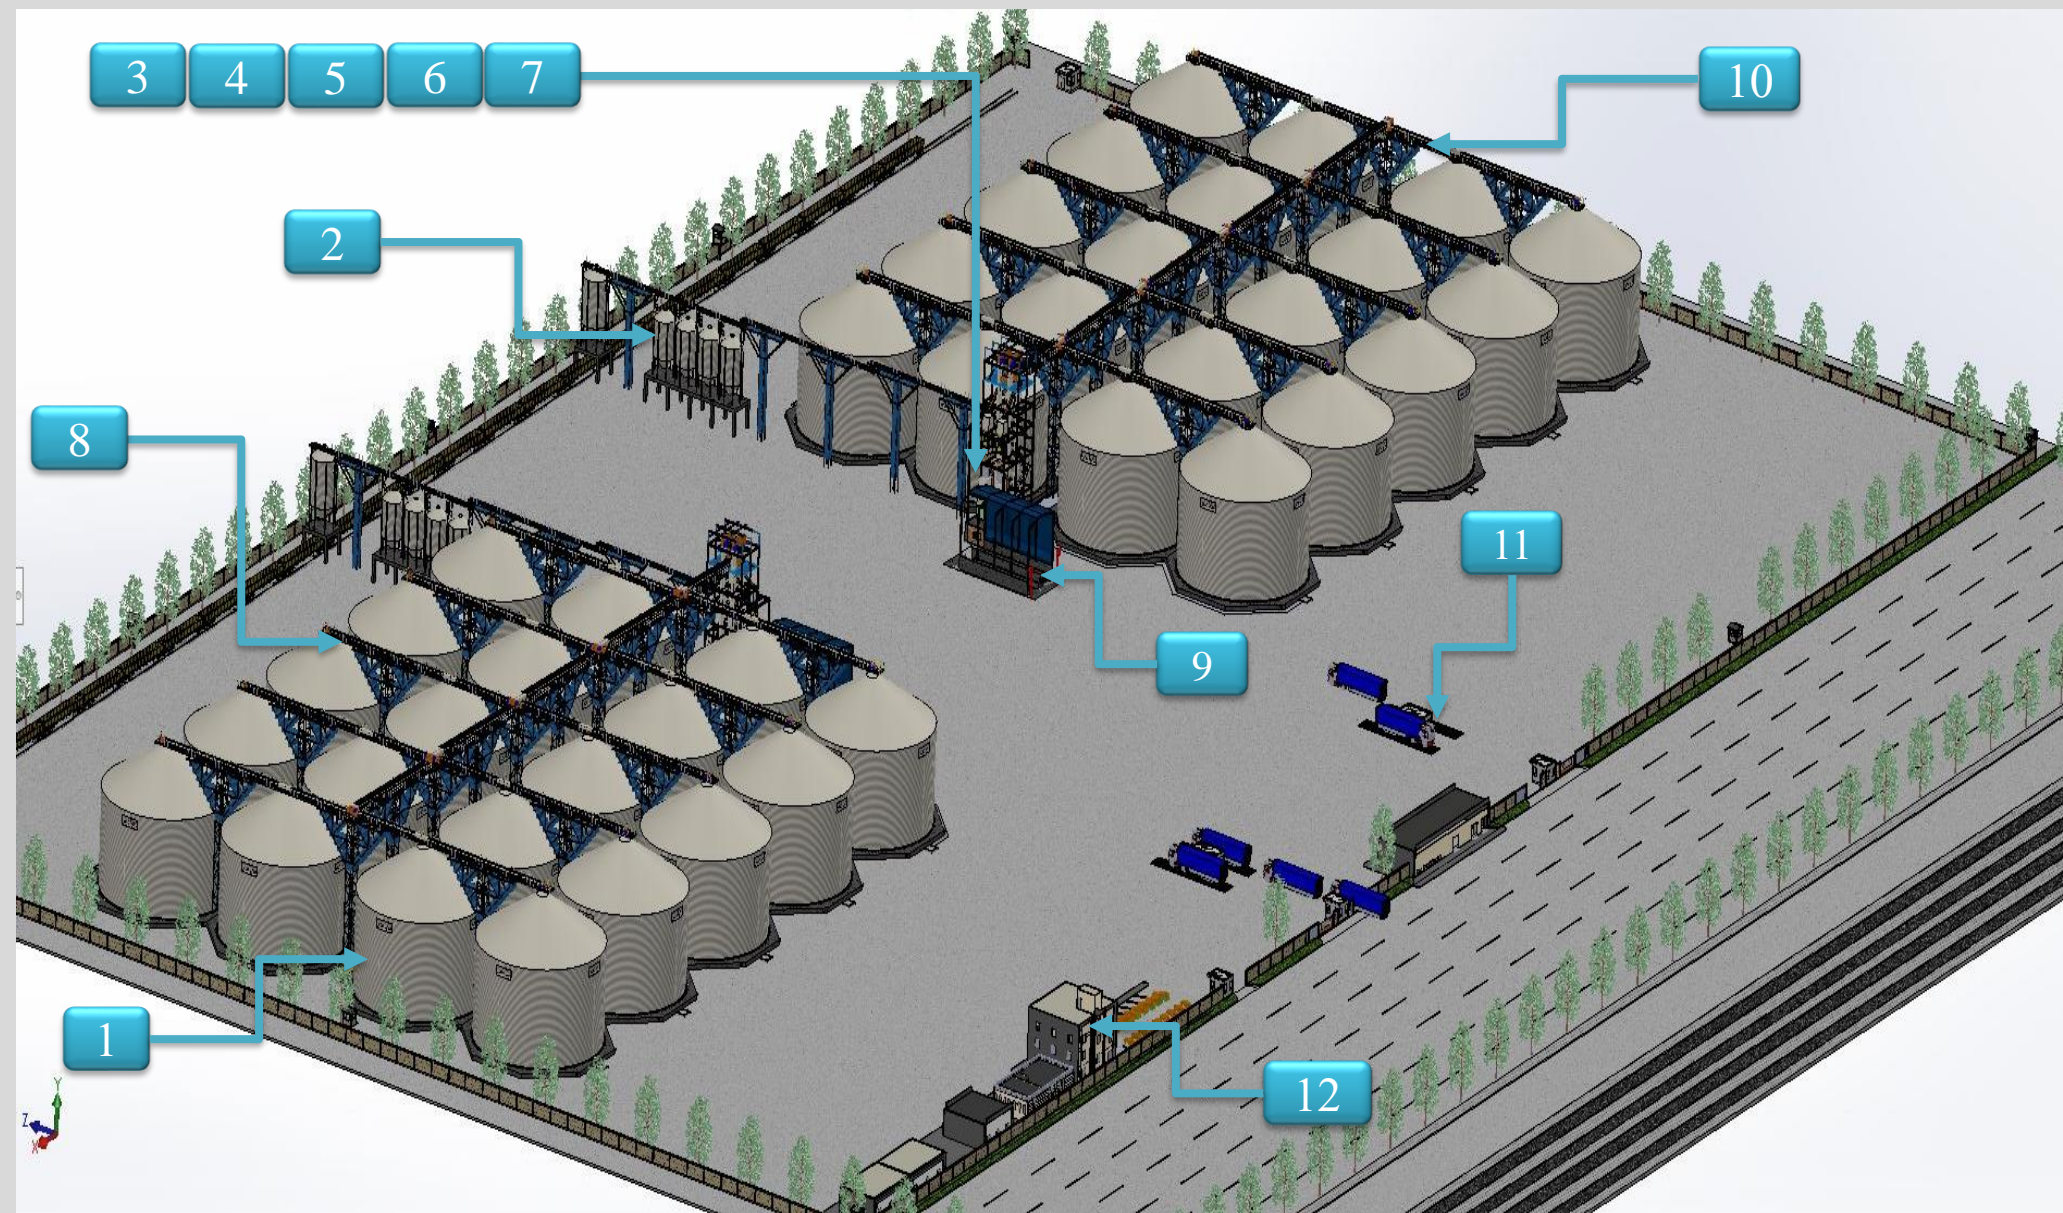

➤ Civil works:

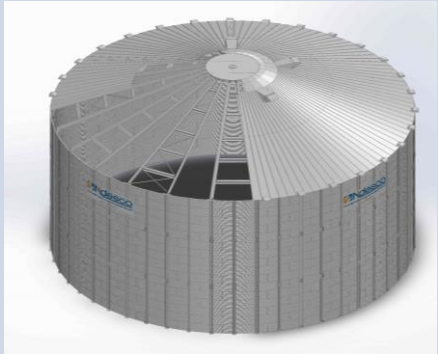

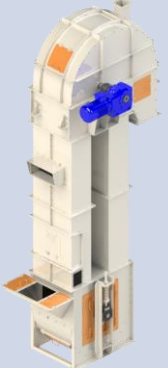

1. NDESCO Engineering also providing Turnkey solutions for civil work in industrial applications
2. Our Civil division has the qualified staff to serve the large projects such as Commercial and industrial buildings.

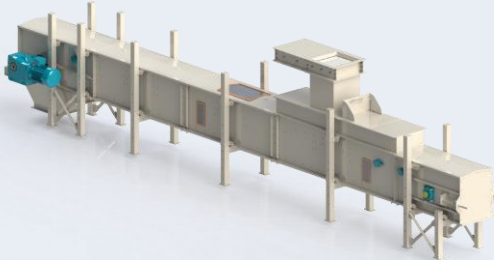

ii. Electro–mechanical include intake pits, bucket elevator, longitudinal belt conveyors, upper charging tripper car & Complete electrical and control works) Steel structure works

➤ All executed projects are running with high performance 24 hr./ day.

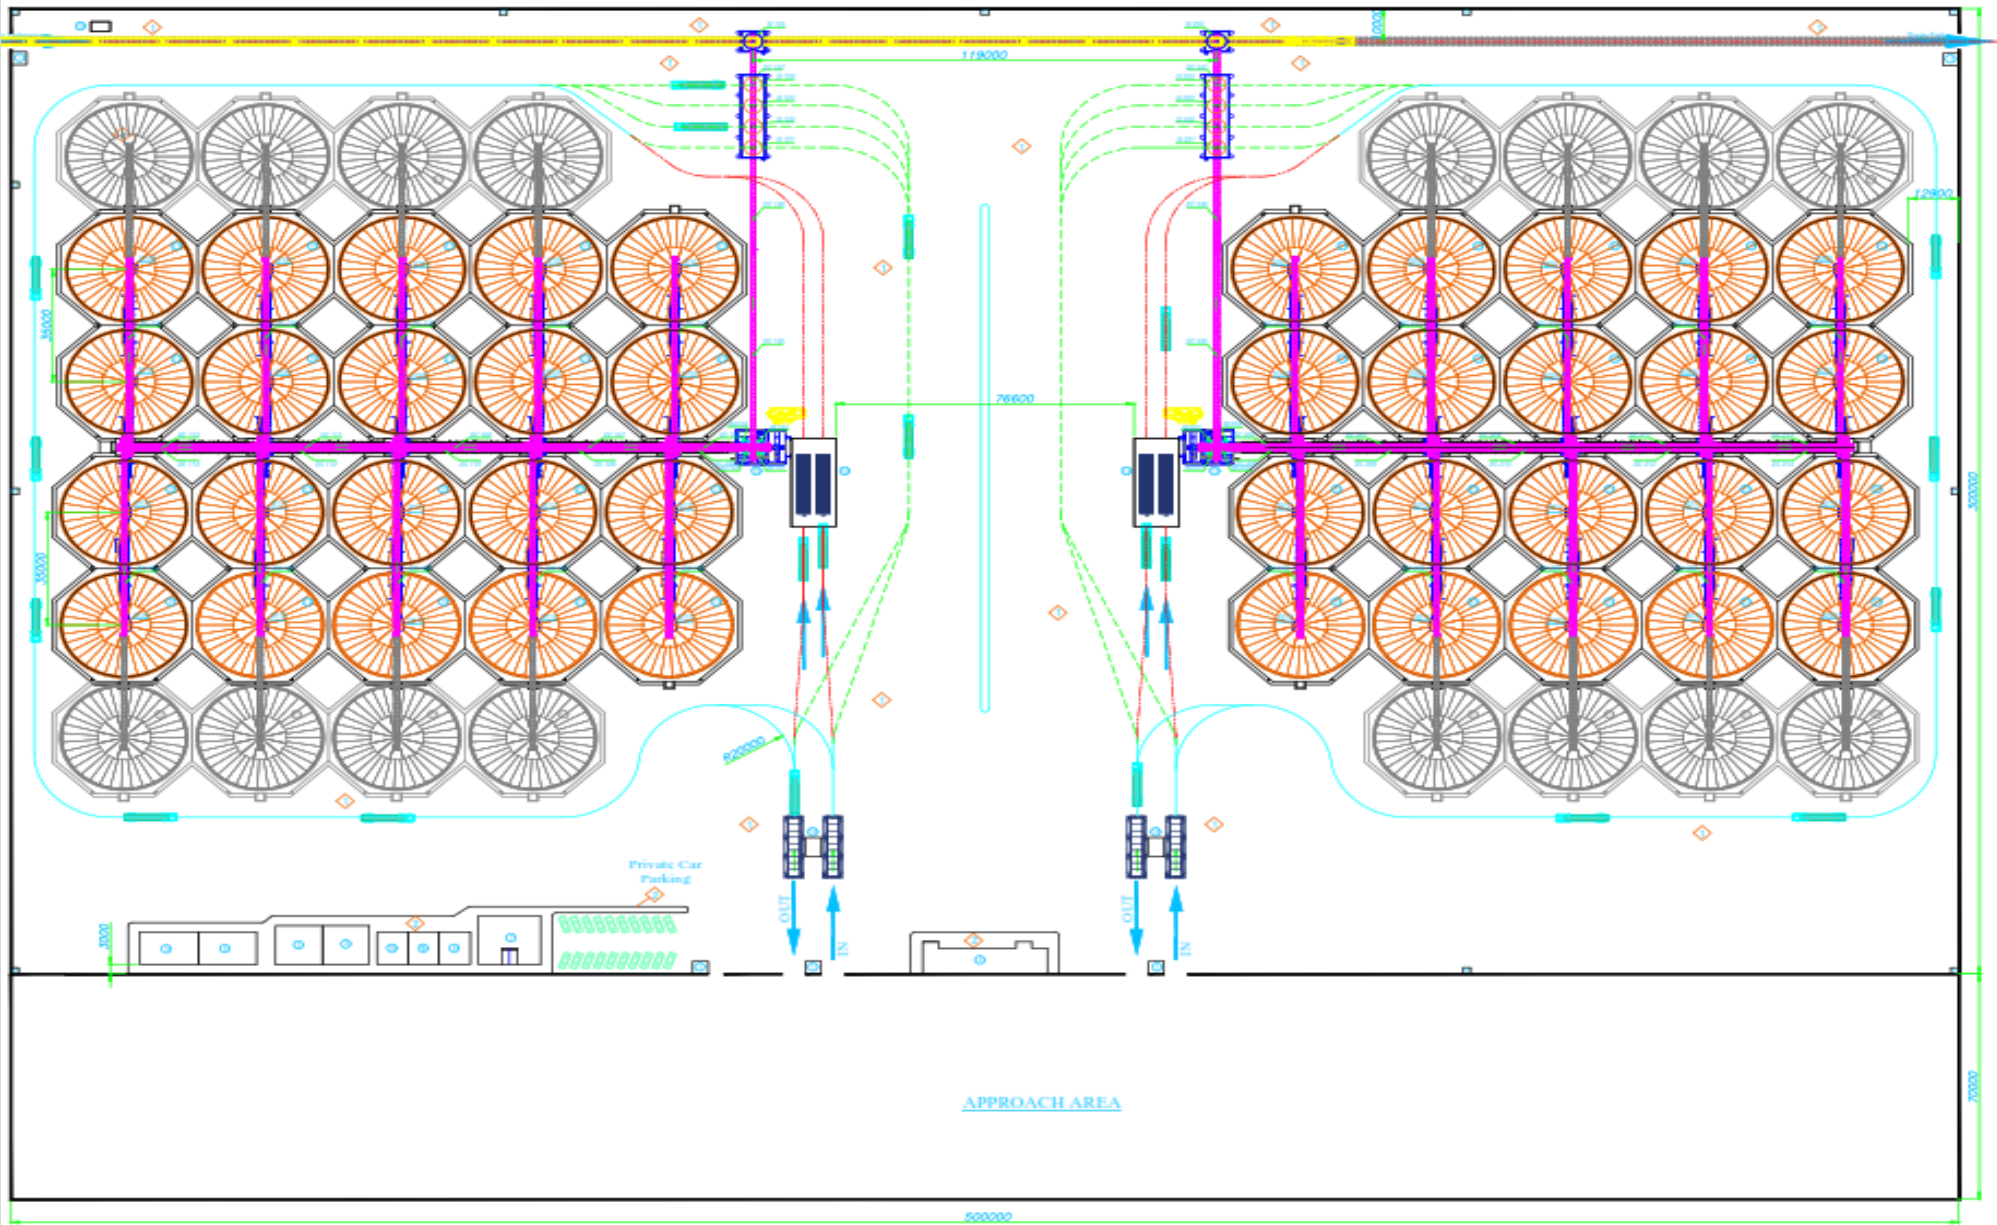

Main Features

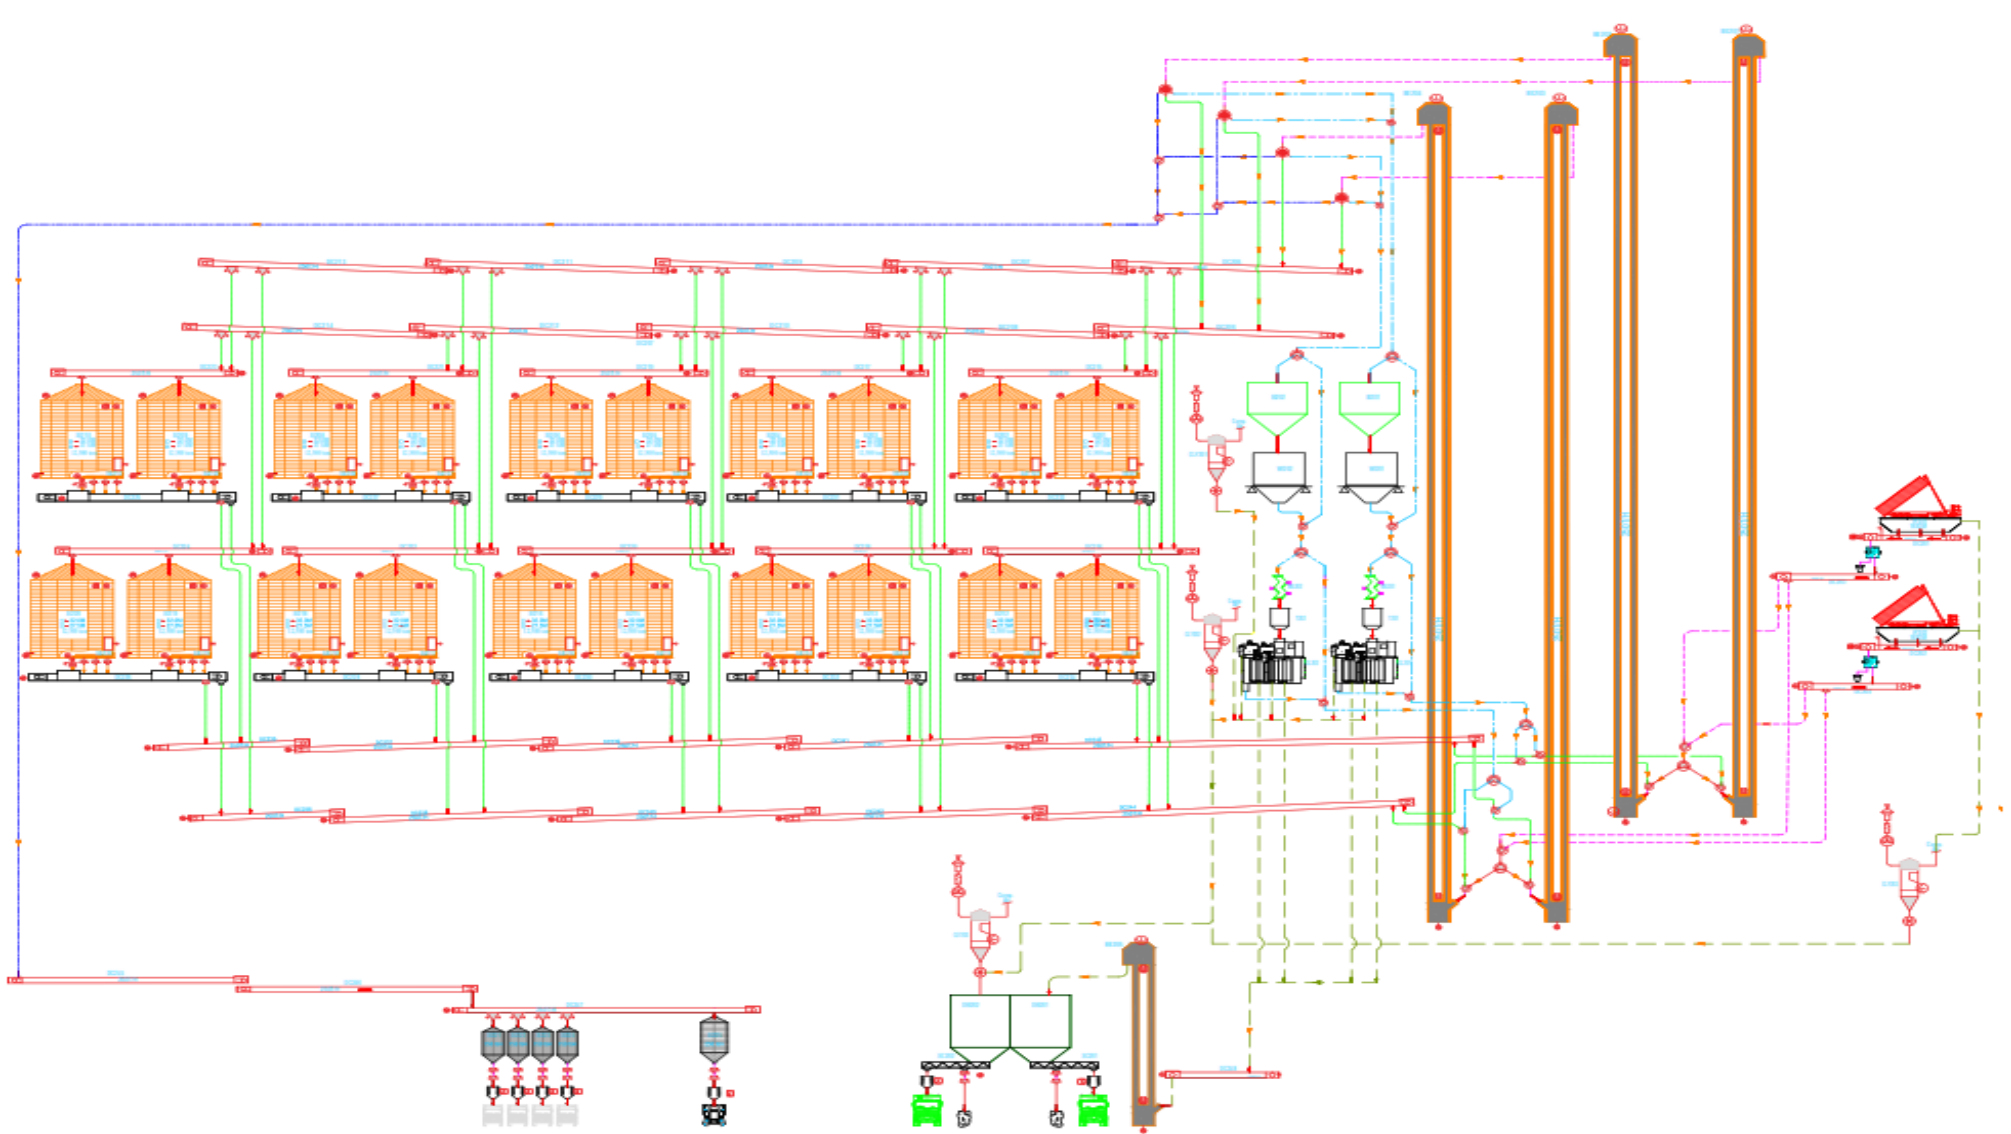

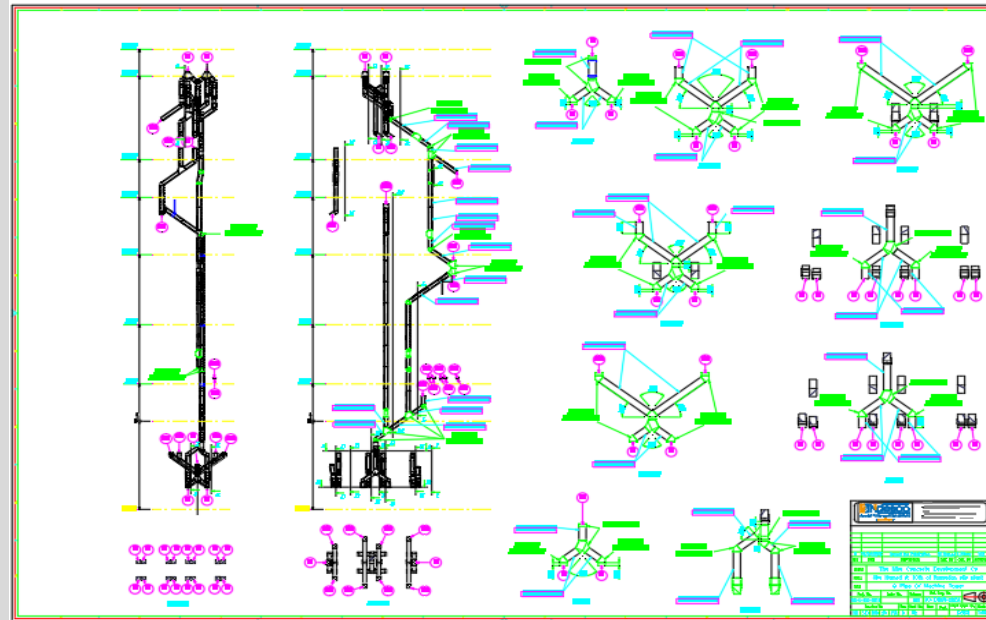

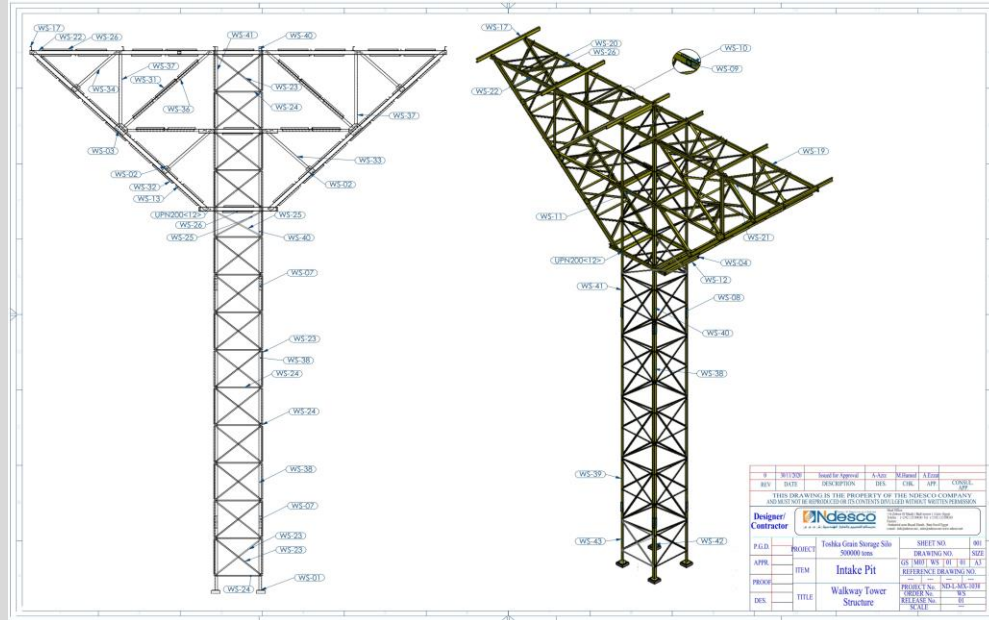

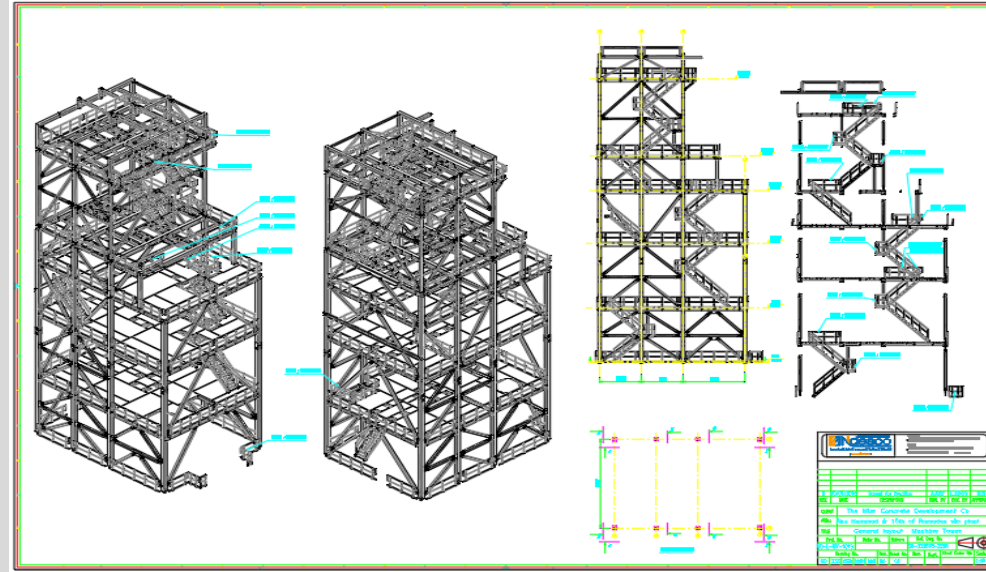

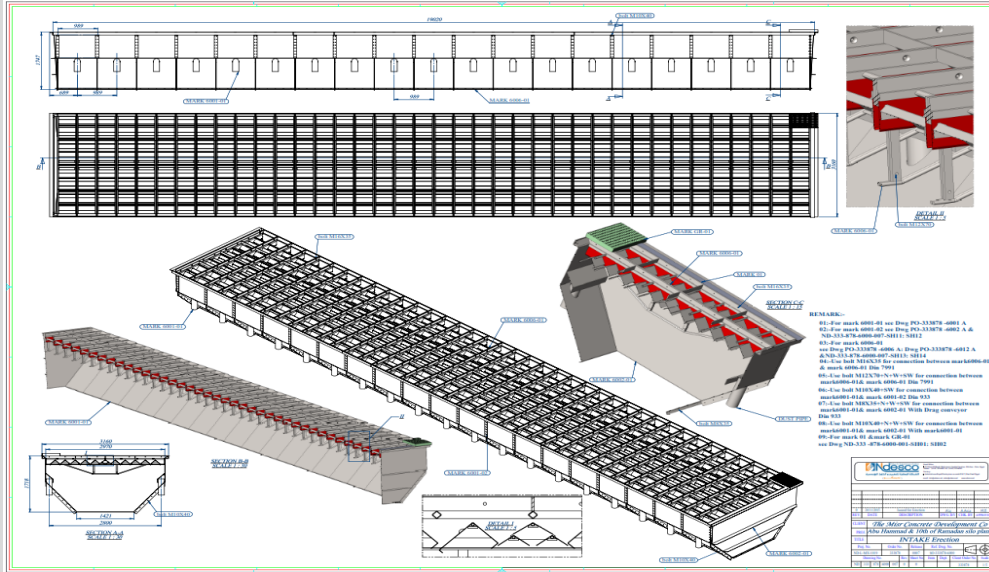

NO.	Item		NO.	Item	
1	Storage Silos		4	Bucket Elevators	
2	Delivery Bins		5	Pre- Cleaner	
3	Machine Tower		6	Magnets	

NO.	Item		NO.	Item	
7	<p>Continuous Weighers</p> 		10	<p>Catwalks</p> 	
8	<p>Chain Conveyors</p> 		11	<p>Weighing bridge</p> 	
9	<p>Intake Pit</p> 		12	<p>Administrative buildings</p>
